

Hearing Aid

Bracket

I need a hearing aid, so I can turn it off
When you talk down to me

I want the world to shut up just for one day

I need a cigarette, so I can light it up
When it's hard for you to breathe

I want the world to shut up just for one day

My day will come
Tell everyone that I'm away
Make yourself numb
You've just begun to stay the same

I need a hearing aid, so I can turn it off
When you talk down to me

I want the world to shut up just for one day
