

Imaginary Friend

Bracket

Won't you please tell me I'm looking for my imaginary friend
But I can't remember where I last saw him
I don't want to lose him why don't you understand
And I need to hear whichever

You say I'm acting strange
I don't know why
And if I've been that way
I don't try
I know you don't believe me
But I don't want to lie
And if you see him, please, don't scare him away

If I had another chance to see my imaginary friend
'Cause my memories of him begin to dim
Don't mind if he tells me everything I should do
And I'll do what I can to see it through
