One More Hangover Day (Warren's Song Pt. 7)

Bracket

Distance you far away from me Your daylight's not my cup of tea

I can't pretend that I have time to spend My medication takes the pain away I'm sleeping through one more hangover day

Inside my clouded memory
I'm underneath my apple tree

I can't pretend that I have time to spend My medication takes the pain away I'm sleeping through one more hangover day

Give me an antidote for my heart So everyone can have their share Everyone can share (3x) Does anyone care

Distance you far away from me Your daylight's not my cup of tea

I can't pretend that I have time to spend My medication takes the pain away I'm sleeping through one more hangover day
