

## Talk Show

Bracket

The whole world is watching me  
As I light up the TV screen  
My life's a parade  
But I've got it made  
I hope everyone will see

I want my ratings to go up  
I hope you all wish me luck  
I'll act like I care  
About your welfare  
And I'll pretend I'll stay in touch

I want to be on your good side  
I've got nowhere else to hide  
Everything that you hear  
May not be sincere  
At least my voice is amplified

I think my credibility has gone away  
The colors on your television will turn gray  
I'll make a living while i exploit everyone  
I never thought this way of life would be so fun

Please come onto my talk show  
I'll share everything I know
