

I've been waiting all week for Saturday night  
Now I'm picking my baby up  
She's pretty as a peach and sweeter than a cheek  
Full of cherry Skoal long cut

Ooh, man alive can't wait 'til it gets dark  
We're gonna take this 4-wheel drive  
And put it into 4-wheel park

I'm pulling in her drive, she's waiting outside  
Just standing on her front porch  
Good Lord, she's taken them tight blue jeans  
And cut 'em off into jorts

Ooh, man alive, be still my beating heart  
I'm about to take this 4-wheel drive  
And slam it into 4-wheel park

There's a holler I know down an old dirt road  
Where we can be all alone  
Gonna back it on in, turn the headlights off  
And see if I can turn her on

Now the mood's just right and the dashboard light  
We're steaming up my windows  
Her favorite saying is singing her favorite song on the radio  
"Let's get a little mud on the tires"

I've got the defrost on and the steam vac on  
And we're heading down highway 10  
Lord have mercy, she's a getting all flirty  
And kissing my neck again

Ooh, man alive, she's about to hit restart  
I'm about to put this 4-wheel drive  
Right back into 4-wheel park  
I'm about to take this 4-wheel drive  
And slam it into 4-wheel park
