

Me Neither

Brad Paisley

Darling I've been standing here just watching you all night
And I think I've even caught you watching me a couple times.
If I don't ask I'll never know
This may sound dumb but here we go
Do you believe in love at first sight?

Me neither I'm glad that we agree
Believe me that's a big relief
Well this place is awful crowded
And this music is so loud
Would you like to go and grab a bite to eat?
Me neither

It's nice to finally meet a girl who doesn't move too fast
I was only checking that's the reason that I asked
Relationships need time to grow
You and I should take this slow
Darling tell me would you like to dance?

Me neither I's just being polite
Thank goodness my feet are much too tired
I'm sure your tired too
I can see an empty booth
Would you like to maybe sit and talk awhile?
Me neither

We'd never get along
I'm thinking there's no chemistry at all
This has been a waste of time
And I'm running out of lines
Don't you think it's time for me to end this song?
Me neither

(Ah here we go!)

(Ah yeah!)
