

Total breakdown

Brad Sucks

Realize realize
we can always
we can always get by without it
And then I
saw a sign saw a sign
that I know I
that I already tried to doubt it
without it

Telling me telling me
that I might as well give it up again
you're gonna do what you want
Every night every night
living with a girlfriend on the verge of a total breakdown

You and I you and I
baby I just
I just don't wanna talk about it
And then it's
if you mind if you mind
maybe I'll just
maybe I'll write a song about it

Telling me telling me
that I might as well give it up again
you're gonna do what you want
Every night every night
living with a girlfriend on the verge of a total breakdown
