## You're not going anywhere

**Brad Sucks** 

Drunk and losing ground Broken up and down The only way I've found To shake your body free

I've got what it takes
To help you make mistakes
To put you through a phase
That's harder than it seems

I'm not saying anything
You haven't heard before
No one's gonna wait for you
To wake up anymore
Changing all your scenery
Saying you don't care
But you're not going anywhere
Yeah

Spending all your days Frozen in your place Rearrange your face To ways you better be

Having not enough You'll never measure up The alcohol and drugs Are better off in me
