

If You Could Make It Good

Brad

Whenever the sun comes out
Whenever your skies are grey
There's always a way up
A way into your heart today
If you could make it good (x4)
When I want to find out whether I have lost my way
Well is it any wonder?
And this is what she had to say, â??It's gonna be good if you c
an make it good.â??
If you could make it good (x4)
If you can make it fly
Once in the middle of the night with the fire burning bright th
e sun is coming up to me
If you can fly
Whenever the sun comes up
Whenever your skies are grey
There's always a way up
A way into my heart today
If you can make it good
