

## Raise Love

Brad

Welcome now where we belong  
We hit 'em while we're new  
Givin' up my action  
I swear that'll come to you  
And tell me if it seems that  
They'll be given you to find  
And what will you define the world  
That'll make the life to lose  
And raise love

To highlight  
The world of dream and ecstasy  
Problems and attitude  
I'll take from this

And I swear there won't be nothing left to do  
To give it up would just be the best  
Your egos come to you  
And in that darkest hour you scream out  
Giving into pain  
The reason you'll make it my lady  
Well let us come again  
Raise love

To highlight  
The world of dream and ecstasy
