```
It's getting hard to stay up
I think I can hear God calling my name
He'll try to make my heart break
But I was told you'd call me tonight
```

They're calling my name

```
They won't slow the car down
I'm scared that I will keep it for my own
The one that is calling my name is telling come down
```

They're calling my name
They're calling my name
They're calling my name, calling my name
