

# I Am A Nightmare

Brand New

Turn tin to gold  
I want pure energy  
Throw everything I own into the fire  
I want to find a way  
I want to throw up snakes  
Do I have to die to see the other side?

I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle  
I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle

So come shake your Zen out  
And give me pure energy  
My heart is glowing flourescent, I want you to possess it  
I'm not a prophecy come true  
I've just been goddamn mean to you  
So what is this thing laced with  
Please don't replace me  
I surrender, embrace me  
Whatever I'm faced with

I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle  
I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle

Blessed be the lost at sea  
The rest in peace was what they conceive in  
No, I am messed up, no distress  
I fall asleep holding your hand  
Among alien dunes, you are a pale vision of blue  
And I'm a second sail, a saved thief  
So, go save someone else

I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle  
I am a nightmare and you are a miracle  
Coming out of the ground, it's kind of freaking me out  
I am a nightmare and you are a miracle
