

Little light
Lead us through the night
And if we die
Burn down the forest

Chariots
Carry us
Distances
We don't care to walk

(I'm on my way to hell)
(I'm on my way to hell)

Why doesn't anyone I know sleep?
Are they all just scared of their dreams?
When they lay their heads down at night
What are they haunted by?

Why won't anyone just close their eyes?
Could it hurt them to rest for a while?
Do they need their friend to be a lover
Or a lover to be a friend?

Because...
I'm on my way to hell
(Well, I've tried, God knows that I've tried)
I'm on my way to hell
(One time, two time, three time again)

Getting dark
Running out of luck
And our car's stuck
On the train crossing

How're we ever going to know peace?
How will I ever see the light through the trees?
I want to burn down everything we've begun
I want to kill and eat my young

Because...
I'm on my way to hell
(Well, I've tried. God knows that I've tried)
I'm on my way to hell
(One time, two time, three time again)

I'm on my way to hell
(Well, I've tried. God knows that I've tried)
I'm on my way to hell
(One time, two time, three time again)

(I'm on my way to hell)
(I'm on my way to hell)
(I'm on my way to hell)
(I'm on my way to hell)

-fade to hymn

"Oft-time cloudy is the way
But today then beckons me
Oft my wondering heart is, Lord
Off some by-path, far from thee

Father, where my footsteps stray
Guide me back into the thy way
Oh, let it be Oh, let me be
On life's highway, God with thee"
