

# To The Right

Brand Nubian

Yeah we're gonna swing this one to the right  
Wanna give a shout to my man Pos K  
My man Big Daddy, he's cool  
Now Rule Mob, check it out

Well honey here's a Hickie, Puba's not a quickie  
When it comes to skins, goddamn I'm picky  
Who will be the princess to occupy the prince?  
And if she's less than dope I hope the Limo's got tints

Now honey, you see this may sound profound  
But let me love you down and if I'm uptown I'm back downtown  
All the skins I've been in I gets no frowns  
You see doo-doo M C's, really think they can outlast, I smell gas

As a yung'un I was theftly, born as a lefty  
The rhymes I drop, somethin' more than hefty  
Roll like a Ranger, Puba's no stranger  
For those who try to diss me, uh-oh, danger

Used to drink the Olde E, coolers, just be Goldie  
When I played soccer with the dreads that play goalie  
Here steps the one that's capable, of slaughterin'  
For those who wanna bite get the catalogue, start orderin'  
'Cause Puba's shit is on stock Ock

I shape the wig like a woodblock  
I like to dip dip dive, a Benz I'm soon to drive  
I guess you can call this my nine to five  
I send my lust to scoop skins with my skin buster  
Freak the mind and butt behind and I gots the Georgia

But hang on for a sec  
You don't have to worry about the Puba gettin' wreck  
'Cause to me see it's more than likely  
And if I flow too fast, let me, slow down slightly  
Let's take a trip expenses paid money grip  
Don't flake or flam, 'cause Puba's not havin' it

Derek X to the right  
C'mon and clap your hands for Zulu Nation  
C'mon and clap your hands for Zulu  
C'mon and clap your hands for Zulu Nation  
C'mon and clap your hands for Zulu

You see me rock a video and slam shit up on feels so good  
There was no doubt about it, 'cause I knew that I would  
Before I kick these lyrics that I rip and I rule with  
This girl done tried to cram 'cause she was down with the old school

She smacked me, attacked me, harassed me till I swung  
But I made her see stars 'cause her bell rung  
See an uptown girl is much different than a downtown girl  
No I'm not a wife beater, no I'm not a girl cheater  
I nipped this problem in the bud with my force from the Rule  
And my man Ron Stud, word to life

So give a shout if you know what I'm talkin' about  
And if you don't then brother you're lost  
I had a boss, traded it in for a horse  
It died, I made glue, it's no loss

I'm the boss at my job 'cause I hire all workers  
Tired of the sob story tear jerkers  
Compassion, for fashion never seen in our slums  
Never sold work, never handled no gems

So 'Que Sera Sera' as the fat lady sings  
But when the bell toll is the song I sing  
Taken up the flights, whether uptown or crown heights  
I pound a bunch of you after lunch 'cause I do right

Appear from the rear with my Clan and I'm the Cave Bear  
Rip up the street on my worldwide tear  
So loudly my troops and let's form three groups  
Wreck time is here, so let's get paid on free loops

Allah Jamar to the right  
(Yo knowledge the God)  
Peace God  
(Yo knowledge the God)  
Peace God!

You're captivated by the science 'cause the lesson's mathematical  
Jamar rockin' the jam, is an emphatical  
Y, equal, knowledge born I go on, although clothes get torn  
By weaker Cypher men 'cause what came from my pen  
Made 'em lust, now I must

Rush out the back door, in-to the alley  
Girls in pursuit, enough to form a rally  
I didn't wanna scuff up my brand new Bally's  
So I made a quick dip, like I was goin' back to Cali

Took the Lear Jet, don't fear yet, comin' on your ear set  
So as I hit program, you know I'm gonna slam  
Cause even in my name there's a funky live "Jam"  
Don't eat Spam or no types of ham  
Polite to all women so I say, "Yes Ma'am!"

Sniffin' a gram ain't flam, it's kinda weak  
Jamar I keep you open through the rhymes I speak  
Not down with a frat, no I ain't no Greek  
A message from a Blackman, is what you seek
