

# If There Was No You

Brandi Carlile

When I see myself I'm seeing you too  
As long as I remember and I'm feeling like I knew  
That my jokes aren't funny the truth isn't true  
If there was no you

If you were my boat in the deep blue sea  
I probably sink you down  
I know I should have thanked you for carrying me  
But for you I would happily drown

Out on your way the darkest night the longest day  
I know what to say to make you laugh  
And nothing you could do  
Could make me turn my back on you  
When you're looking for a fight I'm your man  
When you need a friend you got my hand

And what i really mean what I'm trying hard to say  
Is that I'm counting on you and you got me too  
Our secrets aren't safe I'm singing out of tune  
If there was no you, if there was no you

Out on your way darkest night the longest day  
I know what to say to make you laugh  
And nothing you could do  
Could make me turn my back on you  
When you're looking for a fight I'm your man  
When you need a friend you got my hand  
When you need a friend you got my hand  
You got my hand
