

Oh Dear

Brandi Carlile

Oh dear out here
Everybody stumbles on fear
Who cares if we're scared
Everyone is on their own

It's only you that my heart desires
Only you alone can know my pain
All alone you were sitting there
Folding pages for your paper chain

Now you can cut me free (now you can cut me free)
Forever say goodbye (forever say goodbye)
Or well be holding hands and go on
Together you and I forever(?)

Heart breaks mistakes
Catching up to me in old ways
I know of hard days
Had my share of lonely nights

Its only you that my heart desires
Only you alone can break my fall
I pace the floor and I wish for more
While you were dreaming with your paper dolls

Now you can cut me free (now you can cut me free)
So when it all unfolds (so when it all unfolds)
We'll be holding hands and go on
Together you and I forever(?)

Poor dear out here
Everybody stumbles on fear
Who cares if you're scared
Everyone is on their own

Oh dear.
