

# Until I Die

Brandi Carlile

Hey there what's that in your sky  
With all the pretty lights  
You think I can get that high?

Hey you man, where's your motivation  
And why the celebration  
You've gotten nothing done here

You wanna live until you  
Die alone and will  
And I can fly alone and will  
I'm not so far below  
I live beneath your sky  
With tainted eyes,  
I've made my mind  
To live until I die

Run run run catch me if you can can can  
Come and hold my hand and I'll be your biggest fan  
Followers living in your hollow words  
I have seen your nine to fives  
Wash away your dreams

You wanna live until you  
Die alone and will  
And I can fly alone and will  
I'm not so far below  
I live beneath your sky  
With tainted eyes,  
I've made my mind  
Hey I'm just fine with all my time  
To live until I die
