

## All Ears Avow!

Brandon Boyd

Out on the road out here state  
Into the apple of the hours late  
Everyone trying to be the same  
You're reformed and smiles, smiles and smiles  
Her body language and some of these too  
A generation of intellectual amputees

Assimilation, conformity  
As drops in a once half empty cup  
Some creatures kiss g-goodbye  
Make it rain for a much needed...\*

Out of your cage get onto your feet  
Knock off the dust in your eyes and repeat  
New fascinations sweet and the sounds  
Polyformed and smiles, smiles and smiles

You better process some of this too  
A generation of one winged working bees  
Here is the garden kissing their feet  
For the last drops of a twice half empty cup

Some mountains, we climb to the top  
Single file to, wide-open spaces\*

Can't see the love for all ears avow  
But no one's hears nobody listening  
But if I scream again cry over it  
but no one hears, nobody's listening.  
Can't single out, all ears avow  
But no one hears, nobody's listening  
Can't scream again, can't cry over it  
But no one hears, nobody's listening  
But there's nobody's listening.
