

# When I'm Alone

Brandon Heath

When I'm alone  
The faces they come and they go  
I wonder if they think I've changed  
I wish I could stay  
But be where you are  
The countries and cities so far  
This is my dream and my gift  
But sometimes I get

Scared  
That somehow I'll cease to belong  
Anywhere  
So I need you when it all starts to show  
When I'm alone

When I'm alone  
I sleep late it's crazy I know  
The worlds only passing me by  
I guess that is why  
I'm telling you now  
That I haven't figured it out  
The depth of the things that I've missed  
They leave me like this

Scared  
That somehow I'll cease to belong  
Anywhere  
So I need you when it all starts to show  
When I'm alone

Is it true that you can find me anytime  
Cause I'm feeling like I'm there, it's about that time

Cause I'm scared  
That somehow I'll cease to belong  
Anywhere  
So I need you when it all starts to show  
When I'm alone
