

# Rock Angel

Brandon Rhyder

She's my rock angel, she's my lover, she's my squeeze  
And when she wraps her arms around me, she gets anything she please

She's got a Hollywood smile and bedroom eyes  
I was falling when she caught me and she swore she'd never let me go

Chorus:

And her wings are roses  
And her halo, solid gone  
When she touches me, I melt into her soul  
I'm incredibly grateful, from head to toe thankful  
The she's my rock angel

She's my rock angel, she likes to let the good times roll  
And when she looks at me, she's telling me she loves me without words  
She wears her lucky tight jeans, lucky for me  
Cause when the lights are out and everybody's gone I know she's taking me home
