I wanna walk in your rain just damp at first wet spots on my shirt soak it all in soaked to my skin clothes heavy with water

downpour

how'd I get so far away from where you are and never notice till now? if I thought that I could speak and if I thought that you'd hear me this is what I'd ask for

a downpour

(CHORUS)

I wanna know your name I wanna hold your hand and soak it all in I wanna feel the rain on my face again and soak it all in

I want you to come be me share my eyes and splash with me puddles won't matter at all

downpour

(CHORUS)

it doesn't matter
where you are now
you can always come home
