

Mercy Medical

Brandtson

Hello, it's mercy medical
We're sorry to inform you of
This situation critical. hello,

It's mercy medical,
We've done everything we can do
There's nothing left
Its up to her and so

Welcome to your funeral
Where they talk about the girl they knew,
A tragedy a shame to lose her, oh.

A little girl so beautiful
A life so new and meaningful,
That little girl so beautiful.

Is it difficult to swallow
When the air is thin
And you can hardly breathe?

Tell them now,
They'll listen now,
They'll help you now,
Just tell them how.

Does it feel like nothing ever changes,
And make you want to sleep forever?

Tell them now,
They'll listen now,
They'll help you now,
Just tell them how.

It's bravery to stay away
From ending life before it's over.

Hello.
