I Wanna Be Down

I would like to get to know if I could be The kind of girl you that you could be down for Cuz when I look at you I feel something tell me That your the kind of guy that I should make a move on And if I don't let you know Then I won't be for real I could be wrong but I feel like something could be going on The more I see you the more that it becomes so true There ain't no other for me it's only you

R: I wanna be down
With what you're going through
I wanna be down
I wanna be down with you
No matter what time of day or night it's true
I wanna be down

I know anybody's gonna be lonely Without the reason they got someone to care for Maybe all you need's a shoulder to cry on If that's a fact than I'll be more than you ever could dream of

If all you need is the time that I got plenty of I'll dedicate all my love until you call baby I wanna stay by your side Be there to call you up And let you know everything will be all right

Yeah oh Yeah, oh
