

Fall Into Me

Brantley Gilbert

A whisper away from changin' everything
But is it safe to say
Such dangerous things
When your hands are tremblin'
Girl I'm weak in the knees
It's times like these when silence means everything
More than anything

So fall when you're ready baby
Let our kiss count the moments and hearts set the pace
I'll be your love song and I'll love you right off your feet
Until you fall into me

Love ain't a race
There's no finish line
And I love a chase
But don't leave me behind
'Cause girl we're both gamblin'
But I'm playin' for keeps
It's time like these
When patience means everything
More than anything

So fall when you're ready baby
Let our kiss count the moments and hearts set the pace
I'll be your love song and I'll love you right off your feet

And I'll fall for you every day
I'll cherish the moments time can't erase
We'll be the love song
I promise you we're gonna sing

Girl when you fall into me
Girl when you fall into me

C'mon baby fall into me
I'm waiting
Fall into me
Fall into me
Fall into me
A whisper away from changing everything
