

Outlaw in Me

Brantley Gilbert

She says, "Baby what's that scar from?"
I said, "Girl, you don't wanna know."
She said, "What about this one or that one?"
"Girl, that was a long time ago."
She kisses and traces every one with her hands
The look on her face says she understands

My baby don't try to change me
'Cause she knows
This is the way that God made me
She gets every flaw, my rebel heart, every tattoo, every scar
She's in love with the outlaw in me

She knows I roll with a rough crowd
And we get wild time-to-time
She knows I won't lay my guns down
I never run from a fight

My baby don't try to change me
She knows
This is the way that God made me
She gets every flaw, my rebel heart, every tattoo, every scar
She's in love with the outlaw in me

Yeah
Alright

That girl knows that she's got me
And prays one day I'll settle down
And I just thank God she loves me
Even when I don't know how

My baby don't try to change me
She knows
This is the way that God made me
She gets every flaw, my rebel heart, every tattoo, every scar
She's in love with the outlaw in me

She's in love
With the outlaw
In me
