

Take It Outside

Brantley Gilbert

Back in the good old days
They knew how to brawl

I'm talkin' real gunslingers
I'm talkin' real outlaws
They'd saddle up and ride on into town
When it was high noon in them old saloons
You knew what was goin' down
When they took it outside

Took it outside
When it was man to man
Toe to toe
You know they had to go
Where nobody's gonna break it up
Not until you've had enough

And if you think you've got the guts
Then lets take it outside
If you think your man enough
You really wanna knuckle up
If you wanna shed a little blood then lets
Take it outside
Let's take it outside

These days things have changed
A lot of talk
Lot of pushin' and shovin'
Well if you wanna walk the walk

Let's have some respect
Got girls in here
Just pay your tab
And lay down your beer and let's take it outside
Take it outside

It's man to man
Toe to toe
You know we need to go
We're all here for a good time
But don't start no trouble
'Cause it won't be the first time
I put a scar on my knuckles

Now brother I don't mind
I'll be glad to stomp your ass
But if both of us walk out that door
One of us ain't comin' back
Let's take it outside
