

It's Common (But We Don't Talk About It)

Bratmobile

So the word on the street is that I'm fucking with you
But did you ever think, I don't think about you
Could it be love? Now could it be true?
Or did you think I don't got nothing better to do?

I work all day and I think of you
I dream all night and you're there too
I'll wipe you ass and do your dishes too
You know it's all I ever wanted to do

I can say you lied
And you could tell me that you tried
You can say you tried
And I could say I know you lied

There's just one thing that I want you to know
I can go where you stay and you can stay where I go
"I know that you're saying it's common...
And I know what you're saying -- but we don't talk about it."

Now you're saying all the things you did, that I did to you
But it ain't what you say, no, it's what you do
You say you wanna know? Well yes it's true
I don't like you boyfriend and I can't stand you

There's just one thing that I want you to know
If you feel something, don't let it show
There's nothing to say and there's nothing to know
I can go where you stay and you can stay where I go

I can say you lied
And you could tell me that you tried
You can say you tried
And I could say I know you lied

I work all day and I think of you
I dream all night and you're there too
I'll wipe you ass and do your dishes too
You know it's all I ever wanted to do

"I know that you're saying it's common..
And I know what you're saying, but we don't talk about it."
It's common, but we don't talk about it
