

## Escape

Brazil

Awake  
Dreaming  
Solemn revery  
Too lost  
Secret  
Link in a broken chain  
Eyes are open  
Only they don't see  
Colour, shape, and terminal velocity

Run away when I feel danger  
Danger hides in every stranger  
Stranger things have happened  
So I feel like being stranger, laughing

All is lost  
And all is lost on me  
Lorazepam  
Says it will set me free  
No cold  
No heat  
Feeling has passed through me  
Give me one thing  
Escape is all I need

Breathing down my neck you see  
Is someone else's destiny  
It makes no difference to pretend  
So give me all my garmonbozia  
Pain and suffering

The right make a world of your own  
Escape overrides it all
