## **Saturn Parkway**

blue water
runs deep
blue water
brings sleep

in the valley
sleep comes easy
in the valley
there is no fear of sharks

and since the battle's end the river flows red with blood the shark has swam upstream the shark bites everyone

and no one seems to notice this gaping wound at my side the shark bites deep and red the shark bites until you're dead voices carry and I hear you

watershed
standing room
curtain call
pull it down
I don't want to
have to need you
where are you now?
