

Let's make a scene  
'Cause baby, you're my queen  
You are my favorite time day

New York in May  
A Barcelona rain  
Nothing's as moving as you little face

Jet lagged at sea  
Like Super Gizi in my tea  
Mistress from Bangkok  
Fallen beauty of my dreams

After the rain  
The comets linger in the sky  
Lying on his back  
He watched the satellites float by

If life's just a dream  
A melancholy scene  
I want to sleep with you forever dear...
