Hold Tight

I wanna dance with you this whole night I hope the music never slows up I hope this place don't never close up Hold tight 'cause you're the only one who feels right Girl I know it's now or never I wanna dance with you forever So hold on tight - never let me go, baby 'cause I can feel the rhythm of your love And when you get yourself in motion Girl it's tearin' my emotions right in two Hold tight And we will dance into the moonlight All the stars they will surround us We will be so glad we found us So hold on tight - never let me go, baby 'cause I can feel the rhythm of your love And when you get yourself in motion I get lovin' notions all for you - yes I do Hold tight

And we will dance into the moonlight I hope the music never slows up I hope tomorrow never shows up Bread
