

Just Like Yesterday

Bread

Just like yesterday you come upon my mind and take it away
Just like at the time the things we did made our hearts skip away

Down on my knees I prayed
Kind woman don't go astray

When it seems at times I've got my mind and heart all straight away
And just when you've become a memory of the past and fade away

I see your face and think of all, of all that we had
With all of the things that you brought me, now was it so bad
Makes me wonder, just like yesterday
You come upon my mind and take it away
