

Live in Your Love

Bread

Take away the moment
That began the lonely night
Take it away
And you'll be back in my life
'Cause I need you back in my life
Take me back to the time
When I could live in your light
If that's the only way to live in your love
Take me back
If that's the way for me to live in your love
Take me back

If I must cling to someone
Then you must be the someone
On my own, on my way
Lookin' back to the day
Back to the day when I could live in your love
Take me back
I got to find a way to live in your love
Take me back
