

Feed the Wolf

Breaking Benjamin

I can feel the animal within
I chain the beast crawl inside myself
I hear the call of violence
I sleep no more and I can't
I've lost it all

Carry me through this world alive
I feel no more, the suffering
Bury me in this cold lie
I feed the wolf, and shed my skin

I can see the devil closing in
I choke the breath that dies to cry for help
I feel the pull of gravity
I bleed no more, and rise again
I've lost it all

Carry me through this world alive
I feel no more, the suffering
Bury me in this cold lie
I feed the wolf, and shed my skin

It's no longer human, it's a beast, unmerciful, ferocious, fear
less
You're a madman
Tampering with nature
Every man, a vicious animal

Carry me through this world alive
I feel no more, the suffering
Bury me in this cold light
I feel the wolf, and shed my skin

Carry me through this world alive
(Fight the animal)
I feel no more, the suffering
(Fight the animal)
Bury me in this cold lie
(Fight the animal)
I feed the wolf, and shed my skin
