

Firefly

Breaking Benjamin

You my friend
You're a lot like them
But I caught your lie
And you know I did
Now I'm lost in you
Like I always do
And I'd die to win
'Cause I'm born to lose

[Chorus:]
Firefly
Could you shine your light
Now I know your ways
'cause they're just like mine
Now I'm justified
As I fall in line
And it's hard to try
When you're open wide

Take my hand
We'll be off and then
We'll come back again
To a different land
Now I like this way
You can go away
If you guess the name
You cannot replace

[Chorus]

Bring me your enemies
Lay them before me
And walk away

[Chorus]

Fuck you firefly
Have you lost your light
Now I hate your ways
'cause they're just like mine
So you lost my friend
Such a sorry end
And I don't know why
So I choke and smile
