Firefly

Breaking Benjamin

You my friend You're a lot like them But I caught your lie And you know I did Now I'm lost in you Like I always do And I'd die to win 'Cause I'm born to lose

[Chorus:]
Firefly
Could you shine your light
Now I know your ways
'cause they're just like mine
Now I'm justified
As I fall in line
And it's hard to try
When you're open wide

Take my hand We'll be off and then We'll come back again To a different land Now I like this way You can go away If you guess the name You cannot replace

[Chorus]

Bring me your enemies Lay them before me And walk away

[Chorus]

Fuck you firefly Have you lost your light Now I hate your ways 'cause they're just like mine So you lost my friend Such a sorry end And I don't know why So I choke and smile
