

# Give Me A Sign

## Breaking Benjamin

1. Dead star shine  
Light up the sky  
I'm all out of breath  
My walls are closing in  
Days go by  
Give me a sign  
Come back to the end  
The shepherd of the damned

X: I can feel you falling away

R1: No longer the lost  
No longer the same  
And I can see you starting to break  
I'll keep you alive  
If you show me the way  
Forever, and ever  
The scars will remain  
I'm falling apart  
Leave me here forever in the dark

2. Daylight dies  
Blackout the sky  
Does anyone care  
Is anybody there  
Take this life  
Empty inside  
I'm already dead  
I'll rise to fall again

X: I can feel...

R2: No longer the lost  
No longer the same  
And I can see you starting to break  
I'll keep you alive  
If you show me the way  
Forever, and ever  
The scars will remain  
I'm falling apart  
Leave me here forever in the dark

\*: God help me I've come undone  
Out of the light of the sun  
God help me I've come undone  
Out of the light of the sun

X: I can feel...

R3: No longer the lost  
No longer the same  
And I can see you starting to break  
I'll keep you alive  
If you show me the way  
Forever, and ever  
The scars will remain

Give me a sign  
There's something buried in the words

Give me a sign  
Your tears are adding to the flood

Just give me a sign  
There's something buried in the words

Give me a sign  
Your tears are adding to the flood

Just give me a sign  
There's something buried in the words

Give me a sign  
Your tears are adding to the flood  
Forever, and ever  
The scars will remain
