

Natural Life

Breaking Benjamin

Hold still
all of my life
all of my time
I don't wanna come back around tonight
and all that I need
is serenity
I don't wanna feel your new disease

[chorus:]
The natural life
you're born, you die
the natural life
you're wrong, you're right
the natural life
you're born, you die
the natural life's a lie

All of my lies
swallow your pride
I don't wanna come back around tonight
and all that I need
is serenity
I don't wanna feel your new disease

[chorus]

Right
you're right
I can never lie
let me go
try to find a home
I can't wait
try to stay awake
dead inside
bothered by the lie
you're right

[chorus]

a lie
