

Shallow Bay

Breaking Benjamin

Come on

The sun will rise, another time
The colors blind, your virgin eyes
I'm so inclined, to make you mine
You're out of line, and out of time

And I float above a shallow bay
Lift me up until the ground gives way
I'm a California castaway
I don't think you wanna fuck with me

Don't over kill, this painless thrill
It's bitter still, your pretty pill
You wait until, you've had your fill
I know you will, I know you will

And I float above a shallow bay
Lift me up until the ground gives way
I'm a California castaway
I don't think you wanna fuck with me
I don't think you wanna fuck with me

A shallow bay
A shallow bay

And I float above a shallow bay
Lift me up until the ground gives way
Well I'm a California castaway
I don't think you wanna fuck with me

And I float above a shallow bay
Lift me up until the ground gives way
And I'm a California castaway
I don't think you wanna fuck with me
I don't think you wanna fuck with me

You live, you learn
You live, you learn
You live, you learn
You live
