

# Chasing Hearts

Breathe Carolina

Chasing, yeah, yeah  
I'm down on my luck  
So I'm down for too much  
Would ya come a little closer when we post up  
Make the most of this rush  
Minds racing, eyes blurry  
Your body's shaking, no worries  
Are you down on your luck?  
Are you down for this much?

I open a bottle of champagne and pass it to you  
You need a man to ease your mind and loving on you  
Baby girl you feel alone?  
Sit up and let it go

Me and my crew  
Staying out late, sit inside and wait but most days  
You can find us kicking it low key here  
Me and my crew  
Living so fast and so hard, chasing hearts

Said it's our ways  
Kicking it low key, okay

Down on my luck  
Cause I've been living too much  
There's nowhere that I'd rather be  
Than post up making so love with you

My mind's racing, eyes are blurry  
Your heart be chasing, no worries  
And I don't wanna give it up  
But I'm out of touch with you  
Being down for too much

I open a bottle, there's no pain and nothing on you  
You need a man to ease your mind and loving on you  
Baby girl you feel alone?  
Just turn up and let it go

Me and my crew  
Staying out late, sit inside and wait but most days  
You can find us kicking it low key here  
Me and my crew  
Living so fast and so hard, chasing hearts

Said it's our ways  
Kicking it low key, okay

It's hard to find something new  
Trying to find the love in you, oh oh  
Champagne chasing (no pain)  
(You can) trust me, oh

Me and my crew, just turn up and let it go

Staying out late, sit inside and wait but most days

You can find us kicking it low key here  
Me and my crew  
Living so fast and so hard, chasing hearts

Said it's our ways  
Kicking it low key, okay
