

I.D.G.A.F.

Breathe Carolina

A constant red on for days and days, I see those lights reflect
ed on your face
Everything can change the moment that you blink, but I don't mi
nd

So if you wanna come in, then come in
Disintegrate into me tonight
And if you wanna give in, then give in
Anything that you feel is right

Even if this chemistry's a catastrophe
I don't give a fuck
If you wanna taste then take a bite right out of me
I don't give a fuck

Freezing time like a strobe on you, breathing in electronic fum
es
We've made our minds and we've made our bets, so let's sink in

So if you wanna come in, then come in
Just disappear into me tonight
And if you wanna give in, then give in
Anything that you feel is right

Even if this chemistry's a catastrophe
I don't give a fuck
If you wanna taste then take a bite right out of me
I don't give a fuck

If you wanna come in, then come in
Disappear into me tonight
If you wanna give in, then give in

Ahhhhh! Give into me! Give in to me!

Even if this chemistry's a catastrophe
I don't give a fuck
If you wanna taste then take a bite right out of me
I don't give a fuck

We're not built to last, shatter like like glass, so come, come
on
I don't give a fuck
I can't remember anything, like what's your name?
I don't give a fuck
