

Rescue

Breathe Carolina

Spare us the rescue. We're not lost, we just go where we want
Spare us the rescue. When we roll we roll deep and we'll sink t
wice as low
Spare us the rescue. I can walk, I can walk on my own two knees
. .
It takes, takes some, takes some dying to feel alive.
Spare us the rescue. A friend in need is a friend I don't need
Spare us the rescue. We've made peace with our lovely disease
Spare us the rescue. Crawled out o fmy tunnel vision to find
It all, all went, all went wrong but it feels alright.
Didn't we enjoy ourselves when we destroyed ourselves.
Whatever happens we're fine
We're on our last life, we'll make no compromise whatever happe
ns we're fine
Spare us the rescue, Back on the street a mile up in the sky
Spare us the rescue. I'm close with my demons there's no need t
o hide
Spare us the rescue. I've worn out my sins, I need new ones to
shine
It takes, takes some, takes some ding to feel alive
Didn't we enjoy ourselves when we destroyed ourselves.
Whatever happens we're fine. We're on our last life
We'll make no compromise. Whatever happens we're fine, so spare
us the rescue
Where have we been where will we go so far. I'm not distant but
this distance
makes all the difference to me. Who have we been? Who will we b
e so far?
It's not visible but we're perfectly comfortable here.
