

## Rescue

Breathe Carolina

Spare us the rescue. We're not lost, we just go where we want  
Spare us the rescue. When we roll we roll deep and we'll sink t  
wice as low  
Spare us the rescue. I can walk, I can walk on my own two knees  
.  
It takes, takes some, takes some dying to feel alive.  
Spare us the rescue. A friend in need is a friend I don't need  
Spare us the rescue. We've made peace with our lovely disease  
Spare us the rescue. Crawled out o fmy tunnel vision to find  
It all, all went, all went wrong but it feels alright.  
Didn't we enjoy ourselves when we destroyed ourselves.  
Whatever happens we're fine  
We're on our last life, we'll make no compromise whatever happe  
ns we're fine  
Spare us the rescue, Back on the street a mile up in the sky  
Spare us the rescue. I'm close with my demons there's no need t  
o hide  
Spare us the rescue. I've worn out my sins, I need new ones to  
shine  
It takes, takes some, takes some ding to feel alive  
Didn't we enjoy ourselves when we destroyed ourselves.  
Whatever happens we're fine. We're on our last life  
We'll make no compromise. Whatever happens we're fine, so spare  
us the rescue  
Where have we been where will we go so far. I'm not distant but  
this distance  
makes all the difference to me. Who have we been? Who will we b  
e so far?  
It's not visible but we're perfectly comfortable here.
