

Sweat It Out

Breathe Carolina

Bass in my chest, and I can barely breathe
I'm out of time I just might catch on fire
I feel the heat, creepin' up to me
It's in my bones
I just might sweat it out

I'm not alone
Until we drop the lights
I'm not alone, you're not alone
Until we drop the lights
We're not alone
I just might sweat it out

It won't be pretty when the lights come back on
Turn em on, turn em on for me
It won't be pretty when the lights come back on
Turn em on, turn em on for me

Turn em back off!!

I'm up right now, and I'm not shutting down
I crossed the line, follow or fall behind
This shit is mine, everywhere everytime
Why don't you sweat it out

I'm not alone
Until we drop the lights
I'm not alone, you're not alone
Until we drop the lights
We're not alone
I just might sweat it out

It won't be pretty when the lights come back on
Turn em on, turn em on for me
It won't be pretty when the lights come back on
Turn em on, turn em on for me

Turn em back off!!

I'm not alone
Until we drop the lights
I'm not alone, you're not alone
Until we drop the lights
We're not alone
I just might sweat it out

It won't be pretty when the lights come back on
Turn em on, turn em on for me
It won't be pretty when the lights come back on
Turn em on, turn em on for me
