

What Would You Say?

Breathe Electric

And what would you say?
If I told you what I thought about
And if it was a little awkward for us both?
It's a little scary and it's really quite contrary
That you
Were tellin' me that I think you'd be best to leave me be
You're living proof that everyone is in a world of their own
And I know that this is more than you can stand
It's all in your head
And stay away stay away
Leave me behind
Stay away stay away
From me

We all live in such a cruel and kind world
With cheering ups and living downs
We're all suckers living in a false hope
What matters most...

I'll turn it upside down and spin it around
But it still wont make much sense to me
I'll turn it upside down
And leave it alone
I think this is the place for me

Go on and think of some thoughts
That make me sick
And I know
You're ready to jump on it
I'll let you say what you say
Even though you never let me
I guess it shows just what kind of a person you are
I got some hope but I'm also realistic
I got some thoughts but nothing real prolific.
Keep yourself from me
Keep 'em comin', keep 'em comin'
Keep yourself away

Too late
Too late
Too late
Too late

I'll turn it upside down and spin it around
But it still wont make much sense to me
I'll turn it upside down
And leave it alone
I think this is the place for me

[Tom higgenson]
If you got a question
I sure will listen
To what you say
If you've got an answer
I'll need a reason
To say I'm wrong
Cause this is all just a stupid game

A place for us
To fight all over the place
And if you don't leave me now
I'm sure we'll find that it's something we were meant to achieve
Yeah

I'll turn it upside down and spin it around
But it still wont make much sense to me
I'll turn it upside down and leave it alone
I think this is the place for me
I'll turn it upside down and spin it around
But it still wont make much sense to me
I'll turn it upside down and leave it alone
I think this is the place for me

Always you say
