

A Good Love Don't Come That Easy

Brenda Lee

You better take it easy,
If we want our love to last
You better slow down,
Boy, we're moving much too fast
We better hold on,
Before our love becomes a thing of the past baby

A good love don't come that easy,
A good love don't come that easy
A good love just don't come that easy

We had some good times,
But what about the bad times
Will you still feel the same
When the sky turns to rain,
Will you still be mine
I don't want to lose your love,
You know a good love is so hard to find, Baby

A good love don't come that easy,
A good love don't come that easy
A good love just don't come that easy

We'd better take our love day by day
Or we're never gonna make it this way

A good love don't come that easy,
A good love don't come that easy
A good love just don't come that easy

A good love don't come that easy,
A good love don't come that easy
A good love just don't come that easy
