

Feel Free

Brenda Lee

Feel free, to say when you want me
Feel free, when your in the mood
This is a hard world we live in,
That's why we have to travel two by two,
Feel free to give all your love to me,
And I'll give the same to you

Feel free to take whatever you need from me
Take my heart, take my soul, take my arms
Take a hold of me please feel free

Feel free to leave when it's over
When the thrill is gone just say good-bye
They'll be no teardrops to bind you
No empty promises, no questions why
I know you'll never stop loving me
As long as your feeling free

Feel free to take whatever you need from me
Take my heart, take my soul, take my arms
Take a hold of me please feel free
