Feel Free

Brenda Lee

Feel free, to say when you want me Feel free, when your in the mood This is a hard world we live in, That's why we have to travel two by two, Feel free to give all your love to me, And I'll give the same to you

Feel free to take whatever you need from me Take my heart, take my soul, take my arms Take a hold of me please feel free

Feel free to leave when it's over When the thrill is gone just say good-bye They'll be no teardrops to bind you No empty promises, no questions why I know you'll never stop loving me As long as your feeling free

Feel free to take whatever you need from me Take my heart, take my soul, take my arms Take a hold of me please feel free
