

# It's The Talk Of The Town

**Brenda Lee**

I can't show my face, can't go anyplace  
People stop and stare it's so hard to bear  
Everybody knows you left me  
It's the talk of the town  
Every time we meet my heart skips a beat

We don't stop to speak  
Know it's just a week  
Everybody knows you left me, uh  
It's the talk of the town  
We send our invitations to friends and relations  
Advancing our wedding day  
Friends and our relations gave congratulations

How can you face that  
What can you say  
Let's make up sweetheart  
We can't stay apart  
Don't let foolish pride, keep you from my side  
How can love like ours be ended  
It's the talk of the town  
We send our invitations
