

# Shine On

Brenda Lee

He'll never grace the pages of any magazines  
And chances are you'll never see him on the silver screen  
But, he's by far the biggest star, the world will never see  
But, he don't shine for the rest of the world  
He's too busy shining on me

Shine on, shine on. Shine on the world may never see.  
Oh baby, won't you shine on, shine on,  
Shine on all your sweet love on me

He won't be asked for autographs like all the movie stars  
And he won't wear the Paris fashions or ride in chauffeured cars  
But, in his jeans, he's the handsome dream that they'd all like to be  
But he don't shine for the rest of the world,  
He's too busy shining on me

Shine on, shine on. Shine on the world may never see.  
Oh baby, won't you shine on, shine on,  
Shine on all your sweet love on me

Shine on, shine on. Shine on the world may never see.  
Oh baby, won't you shine on, shine on,  
Shine on all your sweet love on me
